

# HELLO

## To Whom It May Concern:

I am interested in applying at your company for your position opening as a Graphic Designer. I am excited at the opportunity to be a part of your team. As someone seeking to continue a career in graphic design, I feel the position would allow me to contribute my skills to a growing and proven successful organization in an environment that encourages creativity and great design.

I enjoy the challenge of translating ideas and descriptions into tangible, effective solutions for my clients and employers alike. My five years of related experience in both graphic and website design have prepared me with skills in utilizing all Adobe suite programs along with various other design software. My design experience was enhanced throughout the education I received while at Azusa Pacific University. Our excellent faculty and strong technical curriculum have provided me with the tools and Christian foundations to be able to quickly acquire new skills and tackle challenging problems. My commitment and dedication led me to receive the best graphic designer of the class of 2011 award along with a cumulative 3.7 GPA.

In addition to my strong graphic design abilities, I work well under pressure even within short deadlines. In my past

positions designing full newspaper and magazines publications, multiple held positions as a graphic designer at Azusa Pacific University, managing all corporate design elements, and multiple freelance designing positions, I used my creativity and determination to produce outstanding pieces under the assigned time constraints. I pride myself on taking the initiative to get the job done right because I believe quality of work is the ultimate prerogative. During the time I served in my positions I received praise for my loyalty and my particular attention to details. I work intuitively and appreciate constructive criticism from my peers and supervisors, which makes me an excellent future team member. Added to this, I have a well-rounded artistic background, including both design, fine art, and composition.

For your convenience, I have made my resume and portfolio available at my website. Realizing the limitations of the written page, I would welcome the opportunity to participate in a personal interview to answer any of your questions and better present my qualifications. Thank you for your time and consideration. I look forward to speaking with you soon.
